

DIRT PUDDING

Instructions:

1. Cover your workspace with a tablecloth to catch any crumbs or spills.
2. Using your mini blender or a zip-top bag, crush the cookies until they are crumbly like dirt or sand. Set crumbled cookie dirt aside.
3. Use the instructions on your instant pudding package to prepare it (they should tell you how much milk to add and how long to mix).
4. (Optional) If you want your pudding to be lighter in color and more fluffy, mix in about 1 cup of Cool Whip until combined.
5. Choose your serving dish and assemble your pudding. You can alternate layers of pudding and cookie crumbs, or create a pudding base topped with dirt crumbs.
6. Add gummy worms to the top, or hide them in the dirt - you choose!
7. Enjoy your work! You can cover and refrigerate any leftovers for up to 4 days.

Supplies Needed

- Cookies (Oreos, Nilla Wafers)
- Instant Pudding
- Milk
- Gummy Worms
- Cool Whip (optional)

Tools & Equipment

- Mixing Bowl
- Whisk or Mixing Spoon
- Bowl or Cup for Serving

Choose Your Container

Decide whether you want to make your pudding in something that looks like a flower pot, a fancy bowl, your favorite mug, or in one big pan like a gummy worm garden!
